

Dosing Instructions for Clenpiq:

Colonoscopy

Colonoscopy is a test that allows your doctor to look at the inner lining of your large intestine (rectum and colon). In order to achieve an accurate evaluation of your lower gastrointestinal (GI) tract, it is important that you properly prepare for the procedure. Doctors are able to obtain the clearest view of the bowel when it is flushed completely free of waste material. The thoroughness of this intestinal cleaning depends on you. Without your cooperation, the examination cannot accomplish its purpose and may have to be repeated.
